passage 3

with solutions and explanations

Definition of Dialectical Journal

The term "Dialectic" means "the art or practice of arriving at the truth by using conversation involving question and answer." Think of your dialectical journal as a series of conversations with texts that you read. The process is meant to help you develop a better understanding of the texts we read and to utilize higher level thinking skills. You will find that it is a useful way to process what you're reading, prepare yourself for group discussion, and gather textual evidence for your Literary Analysis assignments.
